

# Day in the Life of Your Company Owner

To effectively run your business, you need quick access to data about the health of your company, team, and clients. Cilio CiO helps you identify little issues early so you can keep them from becoming costly problems. Here's a preview of your day using Cilio's CiO app.

## 8:00 AM

**Where's your team?** See a collective view where every team member is going today, both on a centralized schedule and a single map view showing the visual route they'll take for every stop.

## 9:00 AM

**Check the numbers.** Time in phase, closing % by salesperson/ estimator, past due \$\$, and many more metrics are at your fingertips with customized reporting.

## 11:00 AM

**Stopping by:** You're out in the field and have a few minutes. Pop open your map to see who's working nearby and check in on the job.

## 2:00 PM

**Hot issues.** See any jobsite issues in real time as they are documented. All communication and photos are saved right in your system, so you always know what happened on each job.

## 4:00 PM

**Identify trends.** See all pain points identified on jobs over the past quarter. Is an estimator shorting your quotes? A tech constantly making the same mistakes? Delivery bottlenecks? Seeing the bigger picture means you know what to fix!
